VOL. XV.

CLAY CITY, KY., THURSDAY, JANUARY 13, 1910.

NO. 2.

The Cold Wave.

Last Wednesday morning it began raining which turned to sleet and snow Thursday and Friday morning we were greeted by about a ten inch snow, which was the deepest in probably ten years. Friday night the thermometer dropped to about ten degrees below zero, and it so registered this low three successive nights with one exception when it went to 12 degrees below. This is evidently the coldest weather we have had since 1905. It is warmer now and thawing fast. Indications are now good for rain which will cause another tide in the river. The snow at Jackson and that far up in the mountains was very light.

We Protect Local Advertisers.

Two weeks ago we received a letter from a concern in the city wanting to buy an unlimited amount of advertising space in the Clay City Times and was willing to pay us two times as much as we get from our local advertisers. We refused the offer to uphold a principle. It means to us probably a loss of more money from advertising in the next twelve months than we will get from all other advertising sources, but it is all the same to us.

To Examine Books.

Fred Blackburn, of Stanton, being one of a committee of three appointed from the State Board of Agriculture, Forestry and Immigration to inspect the books of Commissioner of Agriculture, M. C. Rankin, has been in Frankfort the past few days attending to these duties.

Mrs. J. F. Martin, Jr., of Vinton is visiting her sister, Mrs. Wm. C. Martin.

Mens 50 ct. Heavy Fleeced Underwear at 40 cts.

Mrs. Williams,

Double Wedding.

Mr. Dillard Estes and Miss Grace Shearer; Mr. Carl Garrett and Miss Pearl Estes went to Winchester Wednesday, Jan. 5, where they were united in marriage by Elder M. P. Lowry. After marriage they went to Miller's Creek where they spent a few days with relatives.

All of the contracting parties are leading young people of the county and each are to be congratulated upon winning the heart and hand of their respective help mate.

Who Gets the Liquor.

At Carlisle a local option town officers one day last week captured some liquor and there by thought they would get the bootleggers, who proved too sharp for them. They never showed up. Liquor must be pretty scarce down there. The County Judge set claim to it as did the officers who captured it. The case was tried before a jury which awarded the liquor to the officers who confiscated the liquor. The Judge has appealed.

How About Clay City.

The new L. & E. Railway depot at Winchester has been completed and is now occupied by that railroad. It is by far the handsomest and most convenient depot on the line. We think it is now time something was being done for Clay City in the way of a new depot. We can stand it very well so far as the traveling public is concerned, but oh, the loafers, principally the negro part of it is terrible. No decent person cares to wait in our depot ten minutes for a train.

Council Meets.

The City Council convened last Friday night but as there no quorum present the meeting adjourned until Saturday night. Saturday night the Council met pursuant to adjournment the previous night. A quorum was present. Besides the regular routine of business, great interest centered upon the selection of the Marshall to succeed S. D. Rose, who was elected about two months ago to fill out the unexpired term of office of A. P. Johnson, resigned. There were three candidates in the field, viz: S. D. Rose, Oscar Mackey and A. T. Pettitt. Pettitt received every vote but one and was therefore elected.

A. T. Whitt was re-elected Treasurer, and Luther Loving was re-elected Clerk. These officers having proven ideal in their official capacity.

The members of the Board are alert to their duties and they together with the old members of the Board promise a most favorable administration for the city.

Encourage Home Enterprises.

Encourage every home enterprise. Take an interest in every industry, invest liberally in the stock of faith and good will, and distribute it all over your city, in every factory, every work shop, every business house. It will pay you large dividends, and will cost very little. It can never depreciate in value. It will always be above par. Buy home made goods. Ask your merchants for them. Wear home made garments, eat home made articles of food, sleep on home made beds, read home made newspapers. In this way the money you spend is only loaned. It will come back to you again with interest. Praise up your city—don't run it down. Stand by your merchants and manufacturers—they are the bone and sinew of your municipal structure. Stand by your churches and your schools—they are the hopes of your future. Stand by your press—it is the tireless sentinel that guards your interest.

Renews Contract.

Hope Mills, J. Andrew Cain, proprietor has renewed their advertising contract with the Times for the year 1910. This makes eleven successive years business with this enterprising firm, and both parties satisfied. The editor's family has been using Pearl flour for a longer period than above mentioned and it has always given the very best possible results. We can heartily recommend and urge all our readers to use Pearl and Bakers' Pride flour and are sure they will be pleased with it.

We have a full line of mens and boys hats in all of the new shapes and colors. You should see them. Hardwick & Co.,

STANTON COLLEGE NOTES.

Our winter term has opened with a fine lot of new students and few losses among the old ones.

The work of the Departments is now under fair headway under the direction of Mrs. Russell and her able corps of assistants.

Miss Mollie Johnson, of Clay City, has been employed to do the work in 3rd and 4th grades. Miss Johnson was a student with us last year and has made many friends among the Stanton people as a teacher in our schools before the college was built.

The western half of the county is giving us a larger representation than last year. We have now one teacher and seven students from the vicinity of Clay City.

Are there not other young men and women in the county who should go somewhere to school this winter? The boy or girl who lets the young life pass by without an education relegates himself to a lifelong period of slavery to ignorance. A man with the best education is none too strong to meet the pressing demands of this age. Young man, go to school! To Clay City, to Stanton or elsewhere; but go somewhere!

Prof. McConagha will preach morning and evening at the Clay City Presbyterian church, come.

Burned to Death.

Mary Huston, an aged colored woman living alone on the road between this city and Stanton was burned to death before daylight Tuesday morning together with the house and all of its contents.

Our Shoe Department is complete, and many Broken Lines at reduced prices.

Mrs. J. W. Williams

Results of Scientific Farming.

In Wake county, South Carolina one farmer through a systematic rotation of crops, the proper soil culture and a careful breeding of seed corn has succeeded in growing forty-five barrels of corn per acre, and that too on land that five years ago, would not bring four barrels per acre, and land that sold for five dollars per acre. This land was undoubtedly thinner soil than the land is in Powell county, then the same thing can be done on our land by scientific cultivation as is being done in Wake county, South Carolina. The Times thinks it is time we were getting our eyes opened and doing things. Now is the time to begin.

Gets Another Call.

Elder J. T. Turpin, for a number of years pastor of the Lowell's Valley Baptist church, was recently called to the church at Allensville, Clark county. This makes two churches in that county under Elder Turpin's pastoral charge.

It will pay you men and boys to see our line of clothing. We feel sure we can suit you both in style and price. We have them both in novelty and staple colors and styles.

Those "Insurgents."

The Republican platform upon which President Taft was elected and the Republican House kept intact, declared for a revision of the tariff downward. Soon as Taft was sworn into office he called a special session of Congress to revise the tariff according to the declaration of this party platform. However, the tariff was revised upward instead of downward. Taft said he didn't like it but signed it because he said it was the best that could be done at that time.

At the time this revision work was going on there were a score or more of Republican Congressmen and Senators who stood loyal to the good part of their party platform and contended for the revision downward. These Republicans were termed Insurgents. These same members are still upholding the principles of the Republican platform and are the only members that are. Now the "stand-patters" as the radical members are called, are taking steps to read these Insurgent out of the Republican party because they will not bow to the autocratic rule of Joe Cannon, Speaker of the House.

Such principled men are and never were in place lined up with the Republican side of National politics. They are in part for the right thing and should be full fledged Democrats, thereby getting just conceptions on every public question. Taft has turned over and is now with the "stand-patters."

It is a pity, but it is rumored that President Taft will punish the "insurgent" Congressmen or those Republicans who do not agree with the stand pat tariff policies of the party by cutting off their annual supply of garden seed, which they distribute where it will do the most good. As John Langley does not belong in that class, the faithful in the Tenth District will get their seed as usual.—Winchester Democrat.

Thos. W. Lawson comes to the

Froze to Death.

John O'Rear, an old colored man, living near this city was found Friday frozen to death and lying all covered in snow. He was on his road home from this city Tuesday evening and fell into the river which he had to cross near the old dam, and got wet to his waist, and it is thought that this was the cause of his freezing. Some citizens in the neighborhood of which he was, heard him hollowing, but thought nothing of this.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

tub is then filled with hot water and soap suds, into which various articles of linen are thrown. After they are thoroughly saturated the patient takes them up one at a time and rubs them briskly up and down on a washboard placed in the tub. This is kept up until the hands, arms and face are a glowing pink. The patient then goes into the open air and hangs all the linen articles on a line stretched for that purpose. The one completing the task first announces the time to others over the telephone, and is entitled to a prize. It is exciting sport and also invigorating exercise.

At the close Mrs. Fred Smothers played "Nearer My God to Thee", the members joining in the singing. After song service it was announced that next Sunday would be our next regular meeting.
